Unfortunately the game only looks good if you happen to have stamp sized screen (800x600 looks ok).
Tried running it 1920x1080, and results were horrible.

Menu desing was horrible, you could atleast give player a brief of what theyre doing there and some settings could be set up at fly (mouse speed)

Idea great, pricepoint should be twice lower if this is really going to be playable.

At the moment, it aint a full game. **It still has potential.**

. Don't know what the devs are doing. I do know what they're not doing: fixing bugs. Note: I logged bugs for 3 out of 4 of their games and they are still open after months.

A real pity. This ruins a game with potential.. Not as Hello Kitty fan I find this game really fun So I recommend this game to everyone who like to race with cute animal. I enjoy this game for the soul purpose of doing something with someone. It's a pretty good game for it being early access. You have to mess around with the graphics a bit just to get the right FPS. I bought it for myself as well as 2 of my cloest friends, we're enjoying it so far, Achievement hunting type of game too.

GET IT IN THE HOLE. feels like the devs cut the ending from arcania and added some padding there and then added lots of grotty paddig to this to grab another few bucks ! if you have already played arcania then you do think you need this to find the end ????? hahahah well good luck ! but most people seem to think that the gothic series was assassinated at by arcania ! if it wasnt ??? then this has killed it good ! i feel i need to recomend this game but that is only because i do believe that if you have played arcania you deserve an ending

Puzzle? Nah...

Kind of felt like a point and click adventure where you hope for the best! The artworks are still great, but it does not warrant the current price, because other than the art and story there is little content to justify such a high price!. I got this after I was hacked by a Russian hacker and honestly it's pretty good I would recommend.. Not a fan of the survival genre, but I am enjoying playing this game a lot!

Love how the gameplay changes with the day-night cycle. Art and music are top-notch.

I think it is worth giving it a try even if survival isn't your thing.

Must play for anyone who liked Kingdom : New Lands!

. Adds more fun to an awesome game.. While not my favourite VR experience, it's isn't my least favourite either.

And it's really hard to argue with the price...
