Comments Password Recovery Email: Philippine Update Bookmark in your browser Name: Bookmark in your browser Upload a Photo or File Name: Upload a Photo or File The best way to obtain license keys for the 2014 Mac OS X products and early 2015 products is to download the Macintosh Software Updates Utility. You can safely download the.pkg using a clean.dmg image, even if you are trying to get a license key for a fully installed product. The.dmg image of Mac OS X El Capitan v10.11.6.5 creates a perfect, bootable image on a compatible computer. If you choose to download the.pkg from a download site, be careful not to allow any other program on your computer to install the Apple Software Updates Utility. Please Note: The Apple Software Updates Utility will not show as installed, even after you install it, until you either restart or log out of System Preferences. You can also install Software Updates from another location using the following method: Print a paper copy of the current Apple software update description. Or, go to the Apple support site and download the current software update description as a PDF. Open the.dmg image file in a disk image viewer (such as Image Viewer, from Apple's iLife suite). Open the Software Updates description document in the /Applications/ installer. Instructions for macOS Sierra — macOS Mojave The.pkg file for macOS Sierra v10.12.1.1.0 is a universal binary installer that can install to any computer on your network. The installer allows you to continue downloading and installing the update while the installer is still working. If you choose to download the installer file from a download site, be careful not to allow any other program on your computer to install the Mac OS X Update Utility. If you do download the file and use any other program, you could temporarily lose the ability to install the Update Utility or your Mac OS. Please Note: The Mac OS X Update Utility will not show as installed, even after you install it, until you either restart or log out of System Preferences. You can also install Software Updates from another location using the following method: Print a paper copy of the current Apple software update description. Or, go to the Apple support site and download the current f678ea9f9e
